COMSC INSTRUCTION 7600.3J CHANGE TRANSMITTAL 8

Subj: MSC BILLING RATES

Encl: (1) New Sections 3 and 9

1. Purpose. To forward changes in the MSC billing rates approved by OSD under the rate stabilization policy.
2. Background. The rates provided herein reflect the following changes approved by ASD(COMPT) over the FY 2000 rates.

Break Bulk + 38.0%

Each individual break bulk rate may not reflect the exact percent change indicated above since the mileage base is updated each fiscal year to reflect the current pattern of operations. Any rates for routes not reflected herein will be provided by COMSC as required.

3. Action. Remove Sections 3 and 9 from basic instruction and replace with enclosure (1) as applicable.
4. Effective date. The changes are effective for all cargo and POL lifts originating on or after 1 October 2000.

1. Purpose. To publish the MSC billing rates approved by OSD under the rate stabilization policy.
2. Cancellation. COMSCINST 7600.3H.
3. Background. The rates provided herein reflect the following changes approved by ASD(COMPT) over the FY 1992 rates. (R

Break Bulk	-1.6%
Containers	-0.2%

Each individual break bulk rate may not reflect the exact percent change indicated above since the mileage base is updated each fiscal year to reflect the current pattern of operations. Container rates are developed on a route and commodity basis to reflect MSC estimated cost and are then adjusted to generate the ASD(COMPT) approved revenue. Any rates for routes not reflected herein will be provided by COMSC as required. In addition to promulgating the Fiscal Year 1993 billing rates this revised instruction establishes two new traffic areas, Scandinavia (TA 42) and Other North East Asia (TA 58). In addition, sections 2 and 10 have been amplified to better explain billings for MILVANS and empty vans.

4. Effective date. The changes are effective for all cargo and POL lifts originating on or after 1 October 1992.

SECTION 2

INSTRUCTIONS ON APPLICATION OF BREAK BULK CARGO RATES

1. The rates listed in Section 3 are normally applicable to ocean transportation service for break bulk and MILVAN shipments provided by MSC between ports located in the areas described in Section 1. Rates for routes that are not listed in Section 3, or for voyages on which the normal route is not followed (such as circuitous routing while a canal is inoperative), will be established by COMSC, as required.

2. The rates listed in Section 3 are not applicable to containerized cargo (except MILVANS), to cargo paid for under per diem arrangements or to cargo which involves abnormal costs to MSC. In the case of unusual lifts involving abnormal costs, MSC will, in coordination with the shipper service, determine the appropriate charge, either on a lump sum or per measurement ton basis.

3. Commodity classification definitions for the purpose of applying the break bulk cargo rates in Section 3 are as follows.

a. Ammunition/Hazardous Cargo: Includes explosive projectiles, bombs, mines, hand grenades, inflammable liquids, radioactive waste, powder, dynamite or any other hazardous commodity which requires specialized handling or stowage.

b. Reefer: Perishable commodities such as meats, vegetables, fruits, butter, eggs and poultry which require refrigerated (chill or freeze) storage. Does not include semi-perishable cargo stored in ventilated holds.

c. Special: All wheeled and traced vehicles and any commodity which weighs more than 10,000 pounds or measures more than 35 feet in any dimension. Does not include privately-owned vehicles, uncrated aircraft or stake/van type cargo-carrying trailers.

d. Privately-Owned Vehicles (POV): A vehicle belonging to an individual rather than a Government agency.

e. Cargo-Carrying Trailers (CCT)

(1) Van, stake or platform type trailers lifted on "Roll-on/Roll-off" type ships, whether full, partially loaded or empty. Billing is based on overall outside cube (M/T) at rates in Section 3.

(2) All other trailers including Flatracks will be billed at the rates in Section 11.

3 SEP 1992

f. Bulk: Unpacked dry cargo such as coal.

g. Aircraft: Whole aircraft or complete fuselages whether or not engines are installed. Does not include spare parts, engines, aircraft repair supplies or boxed aircraft.

h. General: Commodities other than those defined in the preceding subparagraphs. Includes CONEX boxes (reusable metal containers not designed for intermodal transportation) small arms and small arms ammunition.

R) 4. Policy governing billing of MILVANS

a. All commodities will be billed on actual cargo manifested measurement tons utilizing the applicable rate in Section 3 plus a factor for underutilization based on historical information. For all commodities except ammunition, this factor will be developed with 80% of the interior cube considered full. For ammunition shipments this factor will be developed with 50% of the interior cube considered full. Under no circumstances will these factors be less than one.

b. Reduced rate cargo in a MILVAN will be billed as break bulk cargo as defined in Section 2, paragraph 6. No factor for container utilization will apply.

5. Policy governing billing for exclusive use cargo. Billing for the exclusive use of a ship compartment for movement of any commodity will be based on average utilization of space utilized. All excess loading and discharge days above normal free time will be billed at the per diem rate published in Section 9.

6. Policy governing billings at reduced rates

a. Space Available. (space which remains unused on MSC controlled ships after space has been assigned to space requirement cargo) Shipments will be billed at 25% of either the general or special tariff rate, as appropriate. Reduced rates are limited to the following:

(1) Scrap or salvage material

(2) Other cargo handling gear (includes pallets shipped as break bulk or loaded in MILVANS)

(3) Surplus material of such low value (although not necessarily scrap or salvage) that shipment at full rate would be uneconomical

(4) Empty mail sacks, locks and other related postal equipment

3 SEP 1992

(5) Empty CONEX boxes

(6) Foreign made POVs when cost is paid by member

7. Delays at sea at the request of a sponsor. When a ship is delayed or diverted at sea while on a voyage which is primarily a point-to-point operation, the requesting service will be billed at the applicable MSC per diem rate for the delay. Any other additional expense incurred in connection with the delay will be billed separately at cost.

8. Transshipments

a. When cargo lifts are transshipped solely for the convenience of MSC, discharging and loading expense in connection with such transshipment will be for the account of MSC.

b. Transshipments requested by the shipper service to expedite delivery of cargo in advance of available direct service, or transshipment of cargo to destinations where direct service is not available, the discharging and loading expenses in connection with these transshipments will be for the account of the shipper service.

c. Ammunition shipments to the British Isles transshipped from Europe because of overall lower cost to the government will be billed based on a two-part voyage at the applicable Section 3 rates.

9. When a shipper service sponsors non-Defense Department cargo for transportation by MSC, the service will be billed by MSC at the appropriate MSC rate.

10. When a diversion of a ship or a change in cargo routing is requested by a shipper service, arrangements and determination of responsibility for expenses will be coordinated by the cognizant MSC activity. Requests for required action and acceptance of responsibility for attendant expenses must be confirmed in writing by the shipper service.

11. Whenever services are rendered by MSC for which billings normally would be on the basis of MSC rates which necessitate expenditures over and above costs included in the rates, such additional costs shall be billed directly to the agency requesting the services.

12. Costs of the ship diversions and delays incurred awaiting cargo will be billed to the sponsoring shipper service at per diem rates listed in Section 9.

COMSCINST 7600.3J

3 SEP 1992

- A) 13. Billing of empty containers (MILVANS, SEAVANS, MSCVANS) will be based on the measurement tons of the exterior dimension of the container utilizing the general cargo rates in Section 3 under, the following conditions:
- a. Space Required: 60% of the general cargo rate
 - b. Space Available: 25% of the general cargo rate

SECTION 6

INSTRUCTIONS ON THE APPLICATION OF POL RATES

1. Bulk petroleum movements will be billed on a per diem basis. Rates have been established for vessels of the following sizes and are provided in Section 9.
 - a. Over 30,000 deadweight tons
 - b. 30,000 deadweight tons and under
 - c. Tug/barge operation (under 10,000 deadweight tons)
2. The shipping contract category will be billed on a cost reimbursable basis.
3. When a ship is obtained, billing will begin from the day the ship was accepted, regardless of the date cargo was actually loaded.
4. When two or more sponsors share a ship's voyage, the billing will be prorated among them on the basis of long ton miles, including dead freight long ton miles.
5. Ships will be billed for all operating days; if a ship goes off-hire or into repairs, it will not be billed for the non-operating days.

SECTION 7

SECTION 8**INSTRUCTIONS ON APPLICATION OF SHIP PER DIEM RATES**

1. Ship per diem rates will apply to the following situations:

a. Voyages on which shipper service requirements preclude a reasonable utilization of the ship either as to time or space.

b. Ship demurrage, etc., in accordance with joint agreement between COMSC and the shipper services or when directed by higher authority.

c. When a ship is diverted at the request of the shipper service and such a diversion results in an additional cost to MSC (delay in excess of 12 hours), the shipper service will be billed at the applicable MSC per diem rate for MSC controlled ships (i.e., bareboat-chartered and chartered ships) and at the actual cost for all other ships.

d. Ship Delay Due to Port Congestion. Appropriate time for discharging a ship prior to assessing delay Per Diem Billing will be considered on a case-by-case basis and the sponsor of the cargo will be advised when delay billing will commence.

2. Agreement with the shipper service concerned should be obtained prior to billing on other than a point-to-point basis. Per diem rates will not be applied solely in order to reduce the amount of billing to the shipper service.

3. The per diem rates listed in Section 9 apply only to the ships operating under the conditions indicated with normal crew. When a ship is operating on a per diem basis for a specific shipper service and service is provided for another shipper service, tonnage transportation shall be billed on a point-to-point basis in accordance with Section 3 or 11 and such income derived will reduce (offset) the per diem billings for the ship. When the offsetting credits reduce the per diem billing to what the application of point-to-point rates for mission cargo would have generated, offsetting credits will be discontinued.

4. Per diem rates listed in Section 9 do not apply to ships employed in Arctic operations or other special projects. Special per diem rates will be developed when required for Arctic operations or other unusual circumstances. COMSC will furnish rates for these operations as required.

SECTION 10

INSTRUCTIONS ON APPLICATION OF CONTAINER RATES

1. The rates contained in Section 11 apply to MSC container service provided in SEAVANS and MSCVANS. The rates are all inclusive, except for container detention and reefer maintenance costs, and apply to all SEAVAN and MSCVAN shipments regardless of actual service provided. Container detention and reefer maintenance costs are billed separately on a cost reimbursable basis to the activity considered responsible for causing these costs.
2. Container services provided by MSC are classified as follows:
 - a. SEAVANS: Containers owned and/or controlled by a commercial shipping company.
 - b. MSCVANS: Commercial-owned containers leased to MSC, government-owned containers loaned to MSC and containers owned by MSC.
 - c. MILVANS: All government-owned containers other than those loaned to MSC.
 - d. Flatracks: Containers without weather-proof sides or top usually used for transportation of long length or heavy cargo, such as lumber, iron or steel products. It may be equipped with adjustable ends or corner posts to accommodate various heights.
3. Billings to the shipper services will be as follows:
 - a. SEAVANS and MSCVANS
 - (1) Reefer and general cargo will be billed for 100% of the interior bale cube of the van used at the rates contained in Section 11 provided the manifest has complete documentation on the shipment units within the van. When the van is not completely manifested for all shipment units, the cargo will be billed at the manifested tonnage plus a deficit factor for the average utilized space designed to raise the billing to 100% of the interior bale cube of the van.
 - (2) Vehicles will be billed at the manifested tonnage based on rates listed in Section 11.
 - (3) General cargo, when commingled with vehicles in the same SEAVAN or MSCVAN, will be billed using the rates contained in Section 11 for the manifested tonnage plus the deficit factor for the average unutilized space. Vehicles will be billed at the manifest tonnage of the vehicles.

3 SEP 1992

(4) General cargo commingled with commercial cargo for the convenience of the carrier will be billed at manifested cube of the cargo.

b. MILVANS. Billings to the shipper services will be in accordance with Section 2 of this instruction.

c. Flatracks. Cargo shipped in flatrack containers will be billed for 100% of the interior bale cube of an equivalent length dry cargo container at the general cargo rate contained in Section 11 multiplied by a flatrack differential based on expected/historical usage.

d. Billing for empty vans will be in accordance with Section 2 of this instruction.

4. Procedures to be utilized for the billing of related cost for MSCVANS when loaned to sponsor for purposes other than MSC normal point-to-point service will be accordance with MSCVAN Loan Policy.

5. Policy governing billings at reduced rates. Space available is defined as space which remains unused on MSC controlled ships after space has been assigned to space requirement cargo. Shipments will be billed at 25% of either the general or special tariff rate, as appropriate. Reduced rates are limited to the following:

a. Scrap or salvage material

b. Other cargo handling gear (includes pallets shipped as break bulk or loaded in MILVANS)

c. Surplus material of such low value (although not necessarily scrap or salvage) that shipment at full rate would be uneconomical
